**To be completed by Administrative Council or Church Council**

The mission of Jesus Christ was about building relationships (loving), sharing the good news of Jesus with others (evangelism) and committing ourselves to meeting the needs of those in the community (mission/service). This was the Acts 2 church. God invites us to co-create and co-shape the future with God.

Where are you seeing God at work? In what new ways/things is God inviting you to participate? What are some ways/things you may need to let go in order to make room for the new?

What have you learned from the COVID 19 experience? What new things have you tried that you will continue?
